Share your DICOM® studies

Share via web Portal

Perennity iMAGE Portal is a web based solution to share medical images, videos and reports. Make them instantly available anytime, anywhere to patients, physicians, or radiologists using any web browser, tablet, or smartphone. Simply upload the medical assets to your iMAGE Portal, directly from any modality, workstation or PACS.

Share via patient disc

iMAGE Portal seamlessly integrates with Perennity DICOM, our other powerful software solution to manage Disc robots to output patient discs and/or USB drives. You will have the ability of publishing images to optical media (CD/DVD/BD) & USB
